Experiencing Gerrymandering

Let's do a deeper dive into gerrymandering together with some interactive experiences. The assignment here is to spend approximately 30 minutes on the following sites – and create a functional map from a state with 4-6 congressional districts to submit. Learn about Gerrymandering… It's important to democracy!! ☺

What should districts look like?

The link below is updated with 2020 data. Take a look at state by state designs.

How does this work?

The ol' adage is "packing and cracking" and this is a little game that you can have fun with getting red or blue to have much better than expected representation.
