

BANANAS !

Name:

	Command	Mixed	Market
Who makes the primary economic Decisions? <i>What are these types of decisions?</i>			
Who owns the Factors of Production?			
How Powerful is Consumer Choice? <i>What might this specifically look like in a store or job market?</i>			
Proponents Would Advertise What Key Advantages?			
Critics Would Highlight What Key Disadvantages?			

What numerical evidence can you get me that lends credibility to each of these nations choosing the economic system that they did? Think about all of the economic goals... they might be strong in some the other countries aren't! Use the metrics in the locker.
